

## Product Datasheet

### GA5696 - 3-(4-Chlorophenoxy)-1,2-propanediol

Pictograms

#### Product Details

|               |                                     |
|---------------|-------------------------------------|
| Product Name  | 3-(4-Chlorophenoxy)-1,2-propanediol |
| Glentham Code | GA5696                              |
| CAS Number    | 104-29-0                            |
| EINECS        | 203-192-6                           |
| MDL-Nummer    | MFCD00021990                        |

#### Glentham Product Specification

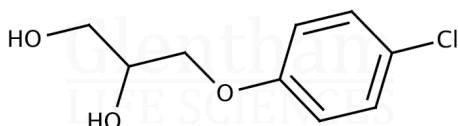

|                      |                                                      |
|----------------------|------------------------------------------------------|
| Physical Description | : White, off-white or pale yellow crystalline powder |
| Loss on Drying       | : ≤ 1.0%                                             |
| Assay                | : ≥ 98.0%                                            |
| Version              | : v1.0                                               |

#### Structure

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Molecular Weight  | : 202.64                                          |
| Molecular Formula | : C <sub>9</sub> H <sub>11</sub> ClO <sub>3</sub> |

#### About 3-(4-Chlorophenoxy)-1,2-propanediol

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                |
|---------------------|------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3, STOT SE 3, Eye Irr. 2A |
| Signal Word         | Achtung                                        |
| Hazard Codes        | H315, H336, H335, H319                         |
| Precautionary Codes | P280, P261, P305+P351+P338                     |
