

## Product Datasheet

### GA9046 - Kirromycin

#### Product Details

|                    |                                   |
|--------------------|-----------------------------------|
| Product Name       | Kirromycin                        |
| Glentham Code      | GA9046                            |
| CAS Number         | 50935-71-2                        |
| EINECS             | 256-859-9                         |
| MDL-Nummer         | MFCD00467139                      |
| PubChem SID        | 310275644                         |
| Related Categories | APIs, Antibiotics, Antimicrobials |

Identification (NMR) : To conform to standard

Solubility (0.2% in methanol) : Clear, yellow solution

Purity (HPLC) :  $\geq 96.0\%$

Version : v1.0

#### About Kirromycin

No further details on record.

#### Structure

Molecular Weight : 796.94

Molecular Formula :  $C_{43}H_{60}N_2O_{12}$

#### Storage

Recommended storage temperature:  $-20^{\circ}\text{C}$ .

#### Hazards and Transport

Not classified as hazardous under CLP.

Not classified as dangerous for transport.

#### Glentham Product Specification

Physical Description : Yellow powder
