

## Product Datasheet

### GK2289 - N,N,N",N"-Tetrakis(2-pyridylmethyl)ethylenediamine

Pictograms

#### Product Details

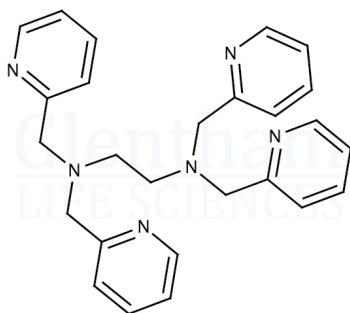

|                    |                                                    |
|--------------------|----------------------------------------------------|
| Product Name       | N,N,N",N"-Tetrakis(2-pyridylmethyl)ethylenediamine |
| Glentham Code      | GK2289                                             |
| CAS Number         | 16858-02-9                                         |
| MDL-Nummer         | MFCD00036918                                       |
| PubChem SID        | 310278106                                          |
| Related Categories | Biochemicals                                       |

#### Glentham Product Specification

|                              |                                              |
|------------------------------|----------------------------------------------|
| Physical Description         | : White to off-white powder                  |
| Solubility (0.5% in ethanol) | : Clear, colourless to faint yellow solution |
| Assay                        | : 97.5 - 102.5 %                             |
| Version                      | : v1.0                                       |

#### Structure

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Molecular Weight  | : 424.54                                         |
| Molecular Formula | : C <sub>26</sub> H <sub>28</sub> N <sub>6</sub> |

#### About N,N,N",N"-Tetrakis(2-pyridylmethyl)ethylenediamine

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

CLP Classification Skin Irr. 2, STOT SE 3, STOT SE 3, Eye Irr. 2A

Signal Word Achtung

Hazard Codes H315, H336, H335, H319

Precautionary Codes P280, P261, P302+P352, P305+P351+P338
