

## Product Specification

|                   |                                               |
|-------------------|-----------------------------------------------|
| Product Name      | 2-Amino-5-methylbenzoic acid                  |
| Glentham Code     | GM9226                                        |
| CAS Number        | 2941-78-8                                     |
| EINECS            | 220-932-3                                     |
| MDL-Nummer        | MFCD00007909                                  |
| PubChem SID       | 310266405                                     |
| Molecular Weight  | 151.16                                        |
| Molecular Formula | C <sub>8</sub> H <sub>9</sub> NO <sub>2</sub> |
| Storage Temp.     | +20°C                                         |

| Property              | Specification                                       |
|-----------------------|-----------------------------------------------------|
| Physical Description  | Off-white, light-yellow or pale yellow-brown powder |
| Assay                 | ≥ 98.0%                                             |
| Specification Version | - v1.0                                              |
| Date Created          | - 2016-09-30                                        |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
