

## Product Datasheet

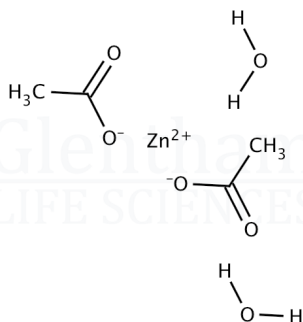

### GX0226 - Zinc acetate dihydrate

#### Product Details

|                |                        |
|----------------|------------------------|
| Product Name   | Zinc acetate dihydrate |
| Glenthams Code | GX0226                 |
| CAS Number     | 5970-45-6              |
| EINECS         | 209-170-2              |
| MDL-Nummer     | MFCD00066961           |
| PubChem SID    | 310281901              |

#### Structure

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Molecular Weight  | : 219.51                                                         |
| Molecular Formula | : $\text{Zn}(\text{CH}_3\text{COO})_2 \cdot 2\text{H}_2\text{O}$ |

#### Pictograms

UN Number, Class, PG  
(RID)

UN3077 - 9 - PG III

#### Glenthams Product Specification

|                           |                                                                                     |
|---------------------------|-------------------------------------------------------------------------------------|
| Physical Description      | : White crystals or crystalline powder                                              |
| Solubility (10% in water) | : Clear, colourless solution                                                        |
| Assay                     | : 98.0 - 102.0 % ( $\text{Zn}(\text{CH}_3\text{COO})_2 \cdot 2\text{H}_2\text{O}$ ) |
| Version                   | : v1.0                                                                              |

#### About Zinc acetate dihydrate

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                     |                                                              |
|---------------------|--------------------------------------------------------------|
| CLP Classification  | Aquatic Chronic 1, Aquatic Acute 1, Acute Tox. 4, Eye Dam. 1 |
| Signal Word         | Gefahr                                                       |
| Hazard Codes        | H410, H400, H302, H318                                       |
| Precautionary Codes | P273, P280, P305+P351+P338, P310, P301+P312                  |
