

## Product Datasheet

### GE3563 - Sodium sulfate, anhydrous

#### Product Details

|                    |                           |
|--------------------|---------------------------|
| Product Name       | Sodium sulfate, anhydrous |
| Glenthams Code     | GE3563                    |
| CAS Number         | 7757-82-6                 |
| EINECS             | 231-820-9                 |
| MDL Number         | MFCD00003504              |
| PubChem SID        | 310280160                 |
| Related Categories | Biochemicals              |

|                           |                              |
|---------------------------|------------------------------|
| Solubility (10% in water) | : Clear, colourless solution |
| pH (1% in water)          | : 6.0 - 7.0                  |
| Insoluble Matter          | : $\leq 0.005\%$             |
| Iron (Fe)                 | : $\leq 5\text{ppm}$         |
| Water                     | : $\leq 0.1\%$               |
| Assay                     | : $\geq 99.5\%$              |
| Version                   | : v1.1                       |

#### Structure

|                   |                                   |
|-------------------|-----------------------------------|
| Molecular Weight  | : 142.04                          |
| Molecular Formula | : $\text{Na}_2\text{O}_4\text{S}$ |

#### About Sodium sulfate, anhydrous

Inorganic, highly water-soluble compound found as a white crystalline powder. Also exists in several hydrated forms. Can be used as an inert drying agent.

#### Storage

Recommended storage temperature:  $+20^\circ\text{C}$ .

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.

#### Glenthams Product Specification

Physical Description : White crystalline powder
