

## Product Datasheet

### GK4219 - 2-Acetyl-6-methoxynaphthalene

Pictograms

#### Product Details

|               |                               |
|---------------|-------------------------------|
| Product Name  | 2-Acetyl-6-methoxynaphthalene |
| Glentham Code | GK4219                        |
| CAS Number    | 3900-45-6                     |
| EINECS        | 223-453-8                     |
| MDL Number    | MFCD00021643                  |
| PubChem SID   | 310265675                     |

#### Glentham Product Specification

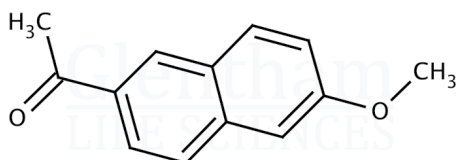

|                      |                                   |
|----------------------|-----------------------------------|
| Physical Description | : White to beige or yellow powder |
| Assay                | : $\geq 98.0\%$                   |
| Version              | : v1.0                            |

#### About 2-Acetyl-6-methoxynaphthalene

No further details on record.

#### Structure

|                   |                     |
|-------------------|---------------------|
| Molecular Weight  | : 200.24            |
| Molecular Formula | : $C_{13}H_{12}O_2$ |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

|                                            |                          |
|--------------------------------------------|--------------------------|
| Not classified as dangerous for transport. |                          |
| CLP Classification                         | Skin Irr. 2, Eye Irr. 2A |
| Signal Word                                | Warning                  |
| Hazard Codes                               | H315, H319               |
| Precautionary Codes                        | P305+P351+P338, P261     |
