

Product Datasheet

GL4333 - SAG

Product Details

Product Name : SAG
Glentham Code : GL4333
CAS Number : 912545-86-9

Structure

Molecular Weight : 490.1
Molecular Formula : $C_{28}H_{28}ClN_3OS$

Storage

Recommended storage temperature: -20°C.

Hazards and Transport

Not classified as hazardous under CLP.
Not classified as dangerous for transport.

Glentham Product Specification

Physical Description : Conflicting attributes defined
Solubility : Soluble in DMSO, sparingly soluble in water
Assay (NMR) : $\geq 98.0\%$
Version : v1.0

About SAG

No further details on record.
