

## Product Datasheet

### GL9144 - Heptadecanoic acid

Pictograms

#### Product Details

|               |                    |
|---------------|--------------------|
| Product Name  | Heptadecanoic acid |
| Glentham Code | GL9144             |
| CAS Number    | 506-12-7           |
| EINECS        | 208-027-1          |
| MDL Number    | MFCD00002751       |
| PubChem SID   | 310274518          |

#### Glentham Product Specification

|                               |                                              |
|-------------------------------|----------------------------------------------|
| Physical Description          | : White to off-white powder                  |
| Solubility (5% in chloroform) | : Clear, colourless to faint yellow solution |
| Melting Point                 | : 59.0 - 63.0 °C                             |
| Assay (GC)                    | : ≥ 98.0%                                    |
| Version                       | : v1.0                                       |

#### Structure

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Molecular Weight  | : 270.46                                         |
| Molecular Formula | : C <sub>17</sub> H <sub>34</sub> O <sub>2</sub> |

#### About Heptadecanoic acid

No further details on record.

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as dangerous for transport.

|                     |                                                   |
|---------------------|---------------------------------------------------|
| CLP Classification  | Skin Irr. 2, STOT SE 3,<br>STOT SE 3, Eye Irr. 2A |
| Signal Word         | Warning                                           |
| Hazard Codes        | H315, H336, H335, H319                            |
| Precautionary Codes | P280, P261, P302+P352,<br>P305+P351+P338          |
