

## Product Datasheet

### GM9011 - L-Lysine monohydrochloride, GlenCell™, suitable for cell culture

#### Product Details

|                    |  |
|--------------------|--|
| Product Name       | L-Lysine monohydrochloride, GlenCell™, suitable for cell culture |
| Glentham Code      | GM9011   |
| CAS Number         | 657-27-2   |
| EINECS             | 211-519-9  |
| MDL Number         | MFCD00064564   |
| Related Categories | Amino Acids, Biochemicals, Reagents for Cell Culture             |

#### Structure

|                   |                               |
|-------------------|-------------------------------|
| Molecular Weight  | : 182.65                      |
| Molecular Formula | : $C_6H_{14}N_2O_2 \cdot HCl$ |

#### Storage

Recommended storage temperature: +20°C.

#### Hazards and Transport

Not classified as hazardous under CLP.  
Not classified as dangerous for transport.

#### Glentham Product Specification

|   |   |
|---|---|
| Physical Description                      | : White powder  |
| Identification                            | : IR  |
| Solubility                                | : Freely soluble in formic acid, sparingly soluble in water, practically insoluble in ethanol |
| Solubility (10% in water)                 | : Clear, colourless solution  |
| Transmittance                             | : $\geq 98.0\%$ (10% in water, 430nm, 10mm cell)  |
| Specific Optical Rotation                 | : +20.8 - +21.5 ° (C=8, 6M HCl)   |
| Chloride (Cl)                             | : 19.12 - 19.51 %   |
| Ammonium (NH <sub>4</sub> )               | : $\leq 0.02\%$   |
| Sulphate (SO <sub>4</sub> )               | : $\leq 0.02\%$   |
| Iron (Fe)                                 | : $\leq 10\text{ppm}$   |
| Heavy Metals (as Pb)                      | : $\leq 10\text{ppm}$   |
| Arsenic (As <sub>2</sub> O <sub>3</sub> ) | : $\leq 1\text{ppm}$  |
| Related Substances                        | : To pass test  |
| Loss on Drying                            | : $\leq 0.4\%$  |
| Sulphated Ash                             | : $\leq 0.1\%$  |
| pH  | : 5.0 - 6.0 (10% in water)  |
| Endotoxins                                | : $\leq 6.0\text{EU/g}$   |
| Assay                                     | : 98.5 - 101.0 %  |
| Origin                                    | : Non-animal origin   |
| Version                                   | : v1.0  |

#### About L-Lysine monohydrochloride, GlenCell™, suitable for cell culture

The monohydrochloride form of lysine, an alpha-amino acid that is essential in humans. It is used in the biomanufacturing of recombinant proteins and monoclonal antibodies. It is an important constituent in cell culture media.
