

## Product Datasheet

### GP5075 - Tenoxicam

UN Number, Class, PG UN2811 - 6.1 - PG III  
(RID)

#### Product Details

|                    |                    |
|--------------------|--------------------|
| Product Name       | Tenoxicam          |
| Glenthams Code     | GP5075             |
| CAS Number         | 59804-37-4         |
| MDL Number         | MFCD00083502       |
| PubChem SID        | 310280532          |
| Related Categories | APIs, Biochemicals |

#### Glenthams Product Specification

|                          |                                                |
|--------------------------|------------------------------------------------|
| Physical Description     | : Yellow crystalline powder                    |
| Solubility (2.5% in DMF) | : Clear, faint yellow to yellow-green solution |
| Residue on Ignition      | : ≤ 0.1%                                       |
| Assay                    | : ≥ 98.0% (anhydrous basis)                    |
| Version                  | : v1.0                                         |

#### Structure

Molecular Weight : 337.37  
Molecular Formula :  $C_{13}H_{11}N_3O_4S_2$

#### About Tenoxicam

No further details on record.

#### Storage

Recommended storage temperature: -20°C.

#### Hazards and Transport

|                     |                                                |
|---------------------|------------------------------------------------|
| CLP Classification  | Acute Tox. 3, Acute Tox. 3,<br>Acute Tox. 3    |
| Signal Word         | Danger                                         |
| Hazard Codes        | H311, H301, H331                               |
| Precautionary Codes | P280, P305+P351+P338,<br>P311, P261, P301+P310 |
| Pictograms          |                                                |
