## **Certificate of Analysis**

| Product Name                          | Copper Foil 0.025 mm, 99.9% |
|---------------------------------------|-----------------------------|
| Glentham Code                         | GX5618                      |
| CAS Number                            | 7440-50-8                   |
| Batch Number                          | 510PMX                      |
|                                       |                             |
| Molecular Weight                      | 63.55                       |
| Molecular Weight<br>Molecular Formula | 63.55<br>Cu                 |
| 0                                     |                             |

| Property                    | Specification                  | Batch 510PMX                   |
|-----------------------------|--------------------------------|--------------------------------|
| Physical Description        | Uniform, copper coloured sheet | Uniform, copper coloured sheet |
| Purity (Trace Metals Basis) | ≥ 99.9%                        | > 99.9%                        |
|                             |                                |                                |
