

## Product Specification

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Product Name      | Zinc acetate dihydrate                                         |
| Glentham Code     | GX0226                                                         |
| CAS Number        | 5970-45-6                                                      |
| EINECS            | 209-170-2                                                      |
| Numéro MDL        | MFCD00066961                                                   |
| PubChem SID       | 310281901                                                      |
| Molecular Weight  | 219.51                                                         |
| Molecular Formula | $\text{Zn}(\text{CH}_3\text{COO})_2 \cdot 2\text{H}_2\text{O}$ |
| Storage Temp.     | +20°C                                                          |

| Property                  | Specification                                                                     |
|---------------------------|-----------------------------------------------------------------------------------|
| Physical Description      | White crystals or crystalline powder                                              |
| Solubility (10% in water) | Clear, colourless solution                                                        |
| Assay                     | 98.0 - 102.0 % ( $\text{Zn}(\text{CH}_3\text{COO})_2 \cdot 2\text{H}_2\text{O}$ ) |

|                       |              |
|-----------------------|--------------|
| Specification Version | - v1.0       |
| Date Created          | - 2016-11-23 |

Glentham Life Sciences confirm that the above referenced product conformed to the information displayed in this document on the quality release date. Please check [www.glentham.com](http://www.glentham.com) or contact us using the details above for the current version of this document.
